Safe Walking Route Concerns

- Mapleton bike/walk path does not connect to the school crosswalks or sidewalks
- Students are going north on 1250 East to get to the Mapleton bike/walk path and crossing diagonally to the path, but trees block the view of cars coming around the corner of 1250 East and 1600 North
- Mr. Johnson has contacted the city several times. The owners of the corner lot trimmed the trees, but the concern is still valid.
